## CAN/AM CON '20 CONTEST RULES

-Our Special Theme this year is *15 Years of Progress: 1945-1960*. Entries competing for Aircraft, Armor, Automotive, Ship, and Space/Sci-Fi awards must have had their full-size subjects produced anytime during those 15 years.

- "The Mustang Challenge" is a Fun Award this year to go the best "Mustang" related entry. It could be any version P-51, any year Ford Mustang, or anything connected to the name "Mustang." (a P-51 Pilot figure would be one example, as would some presentation of "Mustang Sally") Be creative!

-This contest is open to all model builders. Entries can be plastic, wood, metal, resin, etc., but no fully pre-assembled die-cast entries.

-There will be NO sweeps in any category (one entrant will win 1st, another 2nd, and another 3rd).

-Models that have won Judges Grand Award, People's Choice Award, and any Best of Category in any previous CAN/AM CON are ineligible to compete, but may be displayed.

-Judges' decisions are final in all matters. Contest judges have the right to place a model in another category, if they deem appropriate.

-Models may be displayed on simple bases. Bases will not be considered during judging, except for vignettes and dioramas.

-Neither IPMS Champlain Valley, Mount Mansfield Modelers, the Judges, nor Plattsburgh Holiday Inn assume any liability for the loss or damage to entries.

-A junior entrant must be 15 years of age or younger.

-Only instruction sheets from the kit for OOTB entries will be allowed on the table due to space constraints.

-A collection is defined as three or more closely related models which are the work of one person. The closeness of the relationship within the collection will be a factor in judging. For example, 3 versions of a Tiger tank are closer than 3 different German tanks.

-An "out-of-the-box" entry is defined as any kit constructed using only kit parts and instructions. Alternate paint schemes and decals may be used. Display kit instructions with your entry to qualify as OOB.
